

# The Spelling Bee

## Rules for the Spelling Bee:

- In your Character Profile, you have your name, a little bit about you, your personality, and some pre-mystery things to do! Please do not share this with other guests and remember to stay in character throughout the party.
- Remember that this mystery game is a cooperative game, not a competitive one. While your characters may be at odds, we expect all players to respect each other, be kind, and be good sports throughout the night.
- Later this evening, a mystery will take place! It's up to you to talk to other characters, ask questions, look at the evidence, and piece information together!
- Your host is here to answer any questions you may have or address any issues that may come up during play. Please do not hesitate to let them know if you need anything!

## Your Story Starts Here

Every year on one magical night, the town of Starryfalls hosts a "Spelling Bee" for students of magic. Young spellcasters dress up in their best costumes, swap their secrets, and trick or treat each other with new magic spells! Students spend the year practicing and creating new spells to show to Professor Star, the Mayor of Starryfalls, for a special prize. But tonight, a mysterious new spell spoils the fun before it even begins, and the students must solve the mystery and save the Spelling Bee before it's too late!

# Lark

Magic: Charms

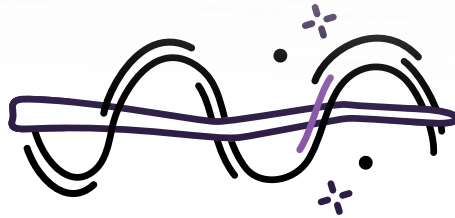

Relationships: A sibling, Nova

Personality: Bright, Bubbly, Loud

You are Lark. The Spelling Bee is your favorite night of the year! While many students prefer to practice all year on their magical spells to compete for a big prize, you think dressing up and swapping secrets is way more fun than having to do schoolwork for some contest. You prefer to cast charms because they go along well with your natural talents. Some people think you are just silly, but you are actually very clever.

This is an example of a Character Profile that your guests will receive before they arrive to the party. This gives them information on their backstory, their closest relationships, and what to do when they first arrive

You are here tonight at the Spelling Bee with your sibling, Nova. Nova likes to create charms like you, but they would rather use their magic to win the Spelling Bee and do well in school. That sounds pretty boring to you! You do try to be nice, but they make it so difficult when they try to boss you around!

## When you arrive:

At the start of the party, try to do all of the tasks below!

- Say hello to everyone at the Spelling Bee. You know everyone here! Well everyone except that new kid, Fox. What is their deal?
- Let Raven, Gale, and Sky know you might have some other magical ingredients to sell, but to keep it a secret for now.
- If Sage asks if you know anything about the magical cupboard or the key, tell them you have no idea!
